

# Waterproofing system for Overhead Tanks

Residential

  
**RESSICHEM**  
adding life and value to your property

# Step 1

Pouring of the concrete  
with the addition of  
**Max Flo Integra 3  
(Powder)**.

**MAX FLO**  
**INTEGRA 3 (POWDER)**  
INTEGRAL WATERPROOFING AND PLASTICIZING POWDERED ADMIXTURE

## Step 2

Filling and repairing of  
the concrete voids with  
**Patch 365 Plus.**

## Step 3

Application of **Water Guard Crysta Coat 101** over the prepared concrete surfaces.

Note: 2 coats to be applied in opposite directions

## Step 4

Making of internal chamfers with **Patch 365 Plus** and coating them with **Water Guard Crysta Coat 101**

# Flood Test

Once chamfer and coating works have been completed it is recommended that a flood test is conducted prior to plastering and finishing

## Step 5

Internal and External plastering of the OH Tank with the addition of **Silmix** and **Ressi SBR 5850** in the plastering mortar.

## Step 6

Internal coating over  
the plastered surface of  
**Water Guard 491.**

**RESSICHEM**  
adding life and value to your property

# A durable and maintenance free solution for residential over head tanks.

# Thank You
